1st January till End of December 2017 (Quarter 4)

Table of Contents

Overview on Financial Position, Performance, FSI and Cash Flow. Statement of Income and Expenditure Statement of Affairs Cash flow Statement Notes to the Accounts Depreciation of Property, Plant and Equipment

Overview and Summary

In the following pages, the Nadur Local Council is presenting the quarterly financial report for period January till December 2017, which depicts the financial status of the Local Council for this period. It is important to understand that the quarterly report was presented on the accruals principle. Such principle is highly prominent when considering expenses. This is so since when applying such principle not only the expenditure which was paid during the period is taken into consideration, but also those expenses which have been incurred by the Council during the period but were still due as at the end of this said period. In this way, income is matched with the corresponding expenditure, resulting in a more reliable and wholesome picture of the financial situation being considered.

As evidenced from the statement of income and expenditure, the Nadur Local Council ended up the year 2017 with a surplus of Euro 23,790. This surplus however, includes both depreciation and deferred income which are essentially noncash items which substantially decrease and increase surplus respectively. It is important to note that in the last quarter, i.e. October to December 2017, the Local Council received Euro 60,000 as income from the Capital Projects Fund. This cash inflow also features in the balance sheet under cash and cash equivalents. In fact, as at end of December 2017, the Local Council in its bank accounts had a net balance of approximately Euro 76,000. Such funds will be subsequently incorporated in the budget for 2018 and expensed according to how the Local Council deems fit after accurately considering and examining the priorities and necessities of the Nadur community.

Another important factor to point out emerging from this quarterly report relates to the fact that the Nadur Local Council managed to keep in line with the financial situation indicator (FSI) as targated in the budgeted figures by end of December 2017. The FSI is an important measure since it monitors the deficit level of the Local Council. The achievement of following such measure effectively implies that the Local Council is efficiently addressing its deficit situation not only through well planned bugets but also through good courses of action.
