NADUR Local Council

Quarterly Financial Report
1st January till End of March 2021 (Quarter 1)

Overview and Summary

In the following pages, the Nadur Local Council is presenting the quarterly financial report for period January till March 2021, which depicts the financial status of the Local Council for this period. It is important to understand that the quarterly report was presented on the accruals principle. Such principle is highly prominent when considering expenses. This is so since when applying such principle not only the expenditure which was paid during the period is taken into consideration, but also those expenses which have been incurred by the Council during the period but were still due as at the end of this said period. In this way, income is matched with the corresponding expenditure, resulting in a more reliable and wholesome picture of the financial situation being considered.

As can be seen from the Statement of Income and Expenditure, the Local Council ended the first quarter of 2021 with a surplus of Euro 21,102. This is however only an absolute figure and to better understand the overall financial situation of the Local Council, one needs to look at the wider picture. It is important to point out that when compared to budget, income was 25% of budgeted income whereas expenditure as at end of March 2021 was around 19% of the budgeted expenditure. Actual expenditure was by far lower than that budgeted mainly due to the fact that due to Covid-19 restrictions the Nadur Local Council was unable to proceed and organize its normal activities, amongst which was the Nadur Carnival. The Nadur Carnival is usually one of the main events of the Nadur Local Council, which even though partially aided through grants by the Ministry for Gozo, usually absorbs a substantial amount of the finances of the Nadur Local Council for this quarter.

In this quarterly report, it is important to point out that for the past years the Nadur Local Council had a deficit financial situation arising from projects which were carried out way back in 2014 and which were still unsettled and thus showing as liabilities in the financial records of the Council. It has always been a priority for this administration to tackle such debts and achieve a positive FSI. In fact, in the last few years the Local Council has always tried to reduce unnecessary expenditure and to always obtain funding prior to conducting any type of capital expenditure. In spite of this on some funded projects carried out by the Local Council in 2020, there arose several variations which unfortunately had to be wholly borne by the Local Council. Such variations amounted to approximately Euro 147,000. During this quarter, the Nadur Local Council managed to pay off Euro 50,000 from such variations and thus reducing the FSI from -23% as at end of Year 2020 to -15% as at end of March 2021. The Nadur Local Council remains committed to once more improve its deficiti position and finally end up with a positive FSI.

Mr. Edward Said **Mayor**

Ms. Sue Ellen Bugeja Executive Secretary
